

Take Pictures on your Android Tablet or Phone

Google Camera App

Free app you can install from the Play store

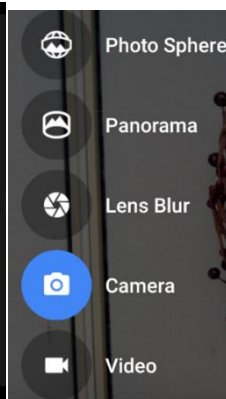

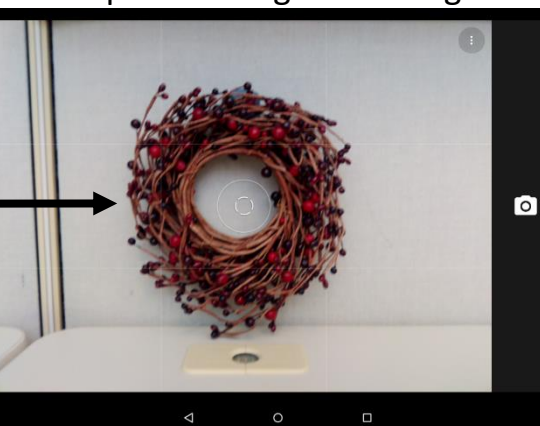

Take a photo

- **Zoom out:** Pinch two fingers together on the screen.
- **Zoom in:** Spread two fingers apart on the screen.
- **Change focus:** The camera will automatically focus, but you can touch another part of the screen to move the focus there.

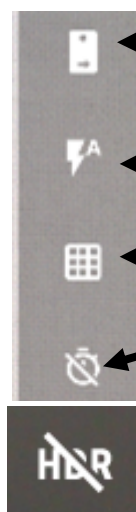

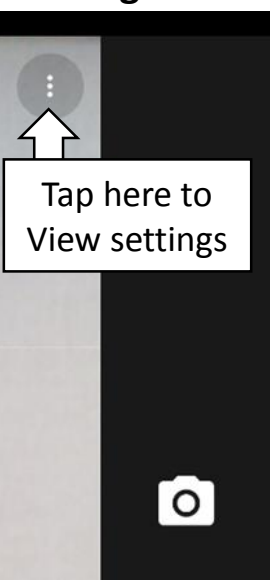

Camera Mode

Swipe to the right to change

- Take a 360-degree panorama like street view in Google Maps
- Take a long photo
- Take a photo that will blur the background
- Take a still photo
- Record a short movie

Settings

- ← **Switch:** Switch between the camera on the front to the camera on the back of your device. *(If your device has the two cameras.)*
- ← **Flash:** Turn flash off (X) or on, or set to auto (A).
- ← **Grid:** Turn grid lines on or off.
- ← **Timer:** Turn on 3-second or 10-second timer.
- ← **High Dynamic Range:** Puts the camera in HDR mode, which captures greater detail in bright or dark areas of a photo. *(This setting isn't available on all devices.)*

View and Edit pictures on your Android Tablet or Phone

Google Photos App

View photos - Photos are displayed by date taken

The image shows two screenshots of the Google Photos app interface with various annotations explaining navigation and editing features.

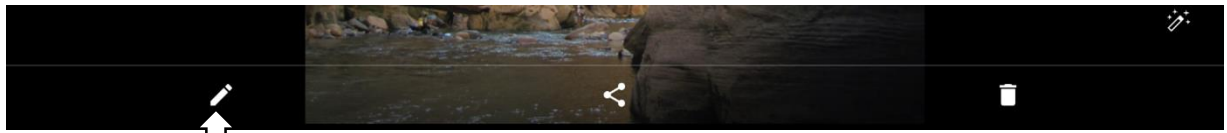

Top Screenshot (Grid View):

- Photos**: The main title at the top left.
- Tap for photo menu**: Points to the hamburger menu icon (three horizontal lines) in the top left corner.
- Tap to create a new project**: Points to the plus icon (+) in the top right corner.
- Tap to search**: Points to the magnifying glass icon in the top right corner.
- Tap for photo settings**: Points to the three vertical dots icon in the top right corner.
- Locate your Albums**: Points to the left sidebar menu containing options like Photos, Stories, Albums, Auto Awesome, Videos, Photos of you, On device, and Trash.
- Swipe up or down to scroll**: Points to the photo grid, indicating vertical scrolling.
- Tap on photo to select**: Points to a photo in the grid.
- Refresh, Select..., Settings, Feedback, Help**: A list of options from the photo settings menu.

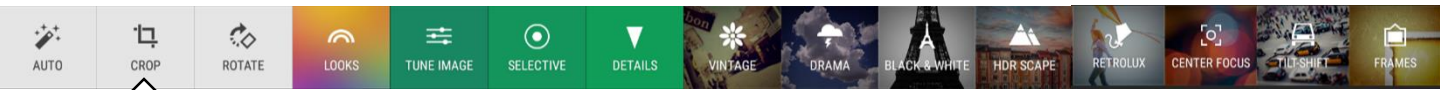

Bottom Screenshot (Full Screen View):

- Return to photos**: Points to the back arrow icon in the top left corner.
- photo settings**: Points to the three vertical dots icon in the top right corner.
- Edit photo**: Points to the pencil icon in the bottom left corner.
- Share photo**: Points to the share icon in the bottom center.
- Delete photo**: Points to the trash can icon in the bottom right corner.
- Auto correct**: Points to the icon for automatic photo correction in the bottom right corner.
- Refresh, Details, Copy to album, Print, Slideshow, Set as..., Download, Settings, Feedback, Help**: A list of options from the full-screen photo settings menu.

Edit options in Google Photos

AUTO

Auto

Automatically adjust color and exposure with one touch. You can choose between **Off**, **Normal**, & **High** intensity of adjustments.

CROP

Crop

Resize or remove parts of your photo. Choose from **Free** (drag the edges of the crop shape to resize), **Original** to preserve the original aspect ratio, or **Square** to save a square photo.

ROTATE

Rotate

Straighten an uneven photo or to rotate a photo 90° left or right.

LOOKS

Looks

Choose from 15 filters to give your photos a new look, like a golden glow, higher contrast, or vignette edges.

TUNE IMAGE

Tune image

Adjust brightness, contrast, saturation, shadows, & warmth.

SELECTIVE

Selective

Change parts of your photo without affecting the rest of it by using control points. Touch **Add** to place control points.

DETAILS

Details

Enhance the details & improve the sharpness of your photo.

VINTAGE

Vintage

Make your photo look old or vintage. Touch **Style** to choose from 12 styles.

DRAMA

Drama

Stylize your photo with effects which range from subtle texture & detail enhancements to over processing effects that mimic the look of HDR images. Touch **Style** to choose between preset Drama styles.

BLACK & WHITE

Black & white

Convert your photo to black & white. Choose a style ranging from vintage and grainy to modern and clean.

HDR SCAPE

HDR scape

Use this tone-mapping tool to open up shadows and pull out detail for a dream-like, evenly-exposed image.

RETROLUX

Retrolux

Make your photo look older and more dreamy with light leaks & multiple film styles. Touch **Style** to choose from 13 styles.

CENTER FOCUS

Center focus

Draw attention to the subject of your photo by adjusting the brightness of & blurring the surrounding background.

TILT-SHIFT

TiltShift

Make a life-sized location or subject look like a miniature-scale model.

FRAMES

Frames

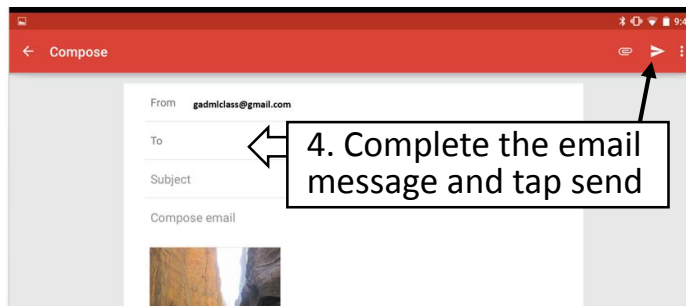

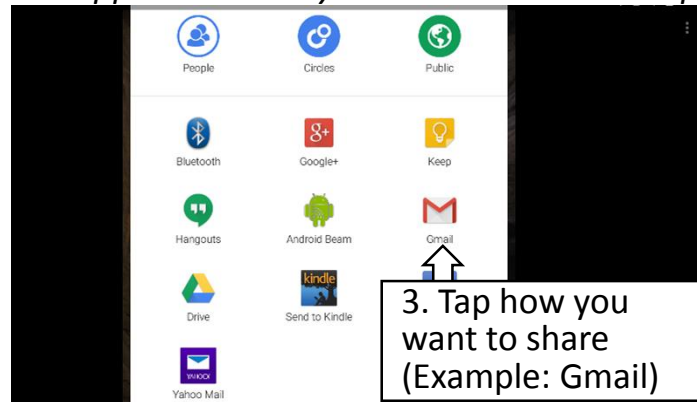

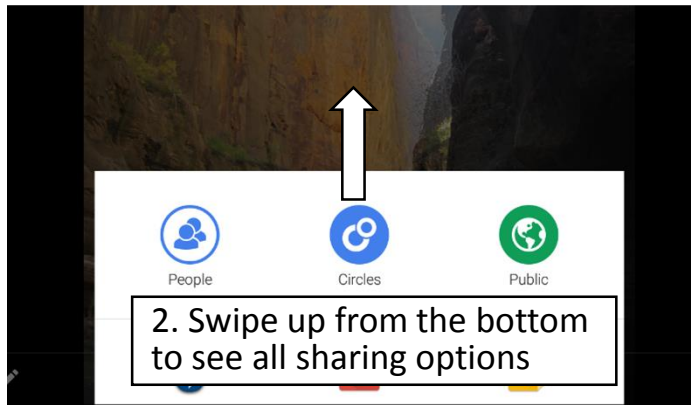

Add stylized borders to your photo for the perfect finishing touch.

Google support descriptions : <https://support.google.com/plus/answer/4551582?hl=en>

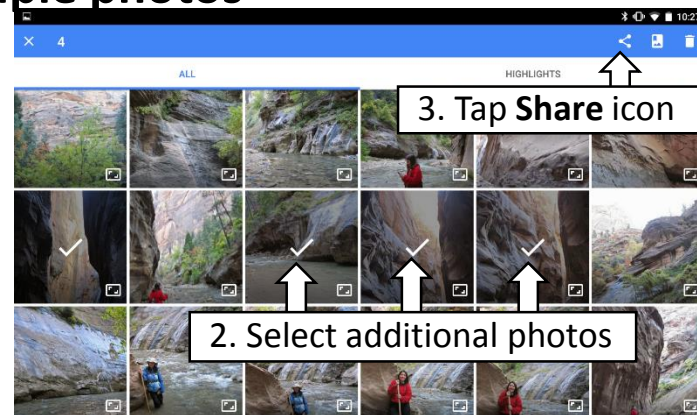

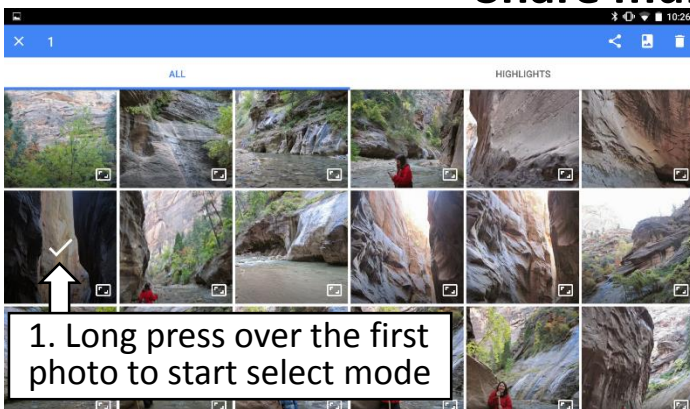

Share a single photo – tap on the photo to select

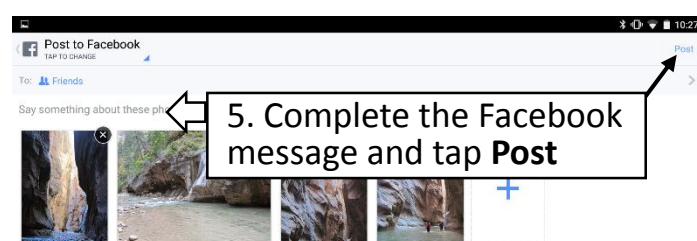

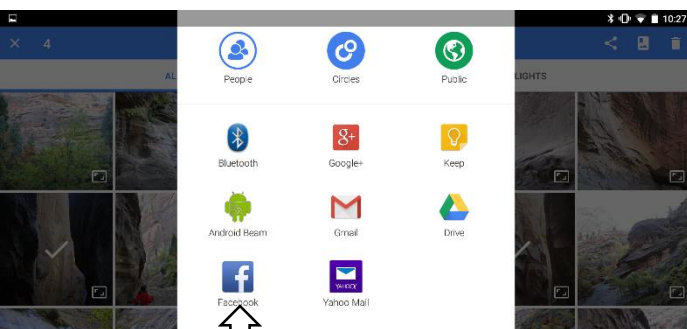

The apps that allow you to share will show up

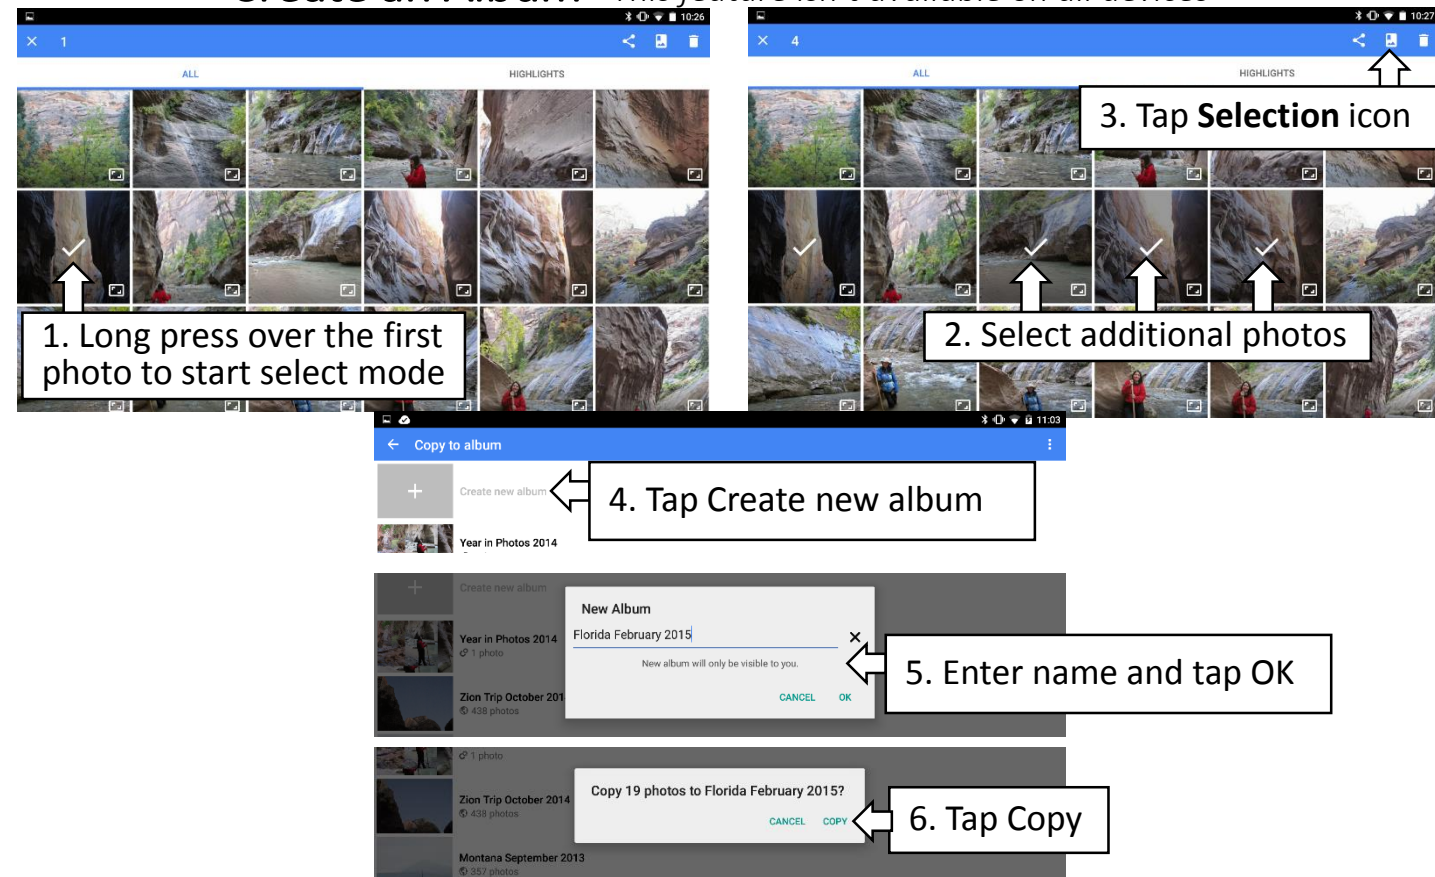

Share multiple photos
